### SIDE EFFECTS, WARNINGS AND PRECAUTIONS

The attachments are intended for single use.  
The products are non-sterile.  
There is a risk of poor fit when patient conditions change.  
Bacterial adhesion can be avoided by applying hygiene measures.  
Inappropriate use or bad manufacturing can lead to premature wear of the attachments.  
The functionality of the attachments will be adversely affected by traumas such as grinding and bruxism.  
For the purpose of traceability we advise you to record the lot number of the applied products in the patient file.  
Do not heat products containing titanium.  
Do not use products containing nickel in case of nickel allergy.  
The accessories RE H 79 and H 35 must be used outside the mouth.
